## Assisted Living Licensure

*Facilities in Rhode Island are licensed by levels of service. This means the licensed facility has the authority to admit residents according to the following classification for fire (F) and medication (M).*

**LEVELS:**  
F1 – for residents who are not capable of self-preservation (requires a more stringent Life Safety Code). F2 – for residents who are capable of self-preservation.  
M1 – for residents who require central storage and administration of maintenance medication M2 – for facilities that only assist residents with self-administration of medications.

Facility listings are strictly informational and should not be considered an endorsement by the Alliance for Better Long Term Care.

Founded in 1979, the Alliance helps protect the rights of elderly and disabled persons living in long-term care settings.

Our mission is to "improve the quality of life and health care of residents of long term care facilities, assisted living facilities, and those who receive licensed health care or hospice in the home."

We house the Rhode Island State Ombudsman for Long Term Care Program. The staff and volunteers advocate for those who have been victims of abuse, neglect, or financial exploitation.

### We Watch. We Listen. We Act.

The Alliance is an independent, nonprofit organization supported by federal funding and state grants through the Rhode Island legislators and Department of Elderly Affairs along with philanthropic giving through private donations.
